

PRESIDENT HARDING DISCUSSES WORLD COURT IN ADDRESS

Executive Spends a Busy Day in St. Louis Thursday

(By The Associated Press)
ST. LOUIS, Mo., June 21.—President Harding completed the first leg of his trans-continental trip upon arriving here late today. The chief executive addressed the annual convention of the Rotary International in session here, laid the cornerstone of a new city club building and made a short address, shook hands with the crowds that thronged his hotel, delivered the first of a series of addresses on his western trip.

In his address to the Rotarians, demographic copies of which were furnished newspapermen the president said:

"If I could find Rotary in every community throughout the world, I would do it and then I would guarantee the tranquility and the forward march of the world."

Asserting service was the greatest thing in the world, Mr. Harding told the Rotarians that "if you could plant the spirit of Rotary throughout the world and turn it to practical application there would not be much wrong with the human procession."

"And the thing the world needs today more than anything else," continued the chief executive, "is to understand that only service will make the restoration that came of the tumultuous world war and if we can all get down to service, human service, honest service, helpful service, the things that humanity must do to make the recovery, then there will come out of the great despondency and discouragement and distress of the world's new order."

Importance of good city government to good government in the nation was emphasized by the president in a brief address given after he had laid the cornerstone of the new home of the City Club.

"You can only have a great nation as you have great cities," he declared. "Consequently those in charge of the national government have a real interest in the government of the cities."

Applause that echoed in the downtown streets greeted a declaration by the president that he liked people who inquire how much can I contribute to my city rather than how much can I get out of my city.

After the cornerstone laying the president and Mrs. Harding were driven to a hotel where a public reception was held but the crush of the crowd in and about the hotel was so great that only a small percentage of those holding tickets to the reception were able to greet the chief executive and first lady.

A quite dinner preceded the address on the world court at the Coliseum—the building in which Woodrow Wilson was nominated for the presidency for the second time.

After the address the presidential party was taken to the St. Louis Municipal Open Air Theater to see a portion of an opera and it was near midnight when Mr. and Mrs. Harding boarded the train again with Kansas City the next principal stop.

The meeting at the Coliseum was opened with the singing of "The Star Spangled Banner" in which Mr. and Mrs. Harding joined. Mayor H. W. Kiel of St. Louis introduced F. W. A. Vesper, president of the Chamber of Commerce who in turn introduced Governor Hyde.

While the governor was speaking Mrs. Harding fanned the president who wore a heavy cutaway coat.

The president departed from his manuscript early in his speech to tell Governor Hyde, who had mentioned inland waterway development as one of the achievements of the present administration that he would discuss that subject tomorrow night in Kansas City.

The first outburst of applause came when he told of the removal of unemployment.

MINE WORKERS GIVEN WARNING

(By The Associated Press)

INDIANAPOLIS, Ind., June 21. Warnings to the members of the United Mine Workers of America and other trade unions in the organized labor movement against giving aid or comfort in any form to the promoters of the "progressive" international committee of the United Mine Workers of America, was contained in a statement issued here today by the International Executive Board of the United Mine Workers of America which has been considering the movement.

FOURTEEN PERSONS DIE FROM HEAT IN NEW YORK THURSDAY

Failure of Water Supply in Queensboro Causes Suffering

(By The Associated Press)
NEW YORK, June 21.—New York sizzled toward the promised close of its first real heat wave of the summer tonight with a record of fourteen deaths and prostrations that were numbered by the scores.

Freshening northeast winds, springing up after the mercury had mounted to 94 degrees at 4 o'clock brought some relief to the sweltering millions.

Palm leaf fans were sold out to perspiring jurors in the New York courts and in one court the electric lights were dimmed until the court room assumed a twilight air.

Mayor Hylan today issued a formal order opening the parks and beaches as sleeping places for the public. Thousands slept on the beach unmolested at Coney Island last night, but more than a score who made their beds in Riverside Drive Park were arrested for violation of a city ordinance.

Magistrate Simpson discharged all the defendants today. Some of the prisoners appeared with babies in their arms.

Probably the most severe suffering from the heat occurred in the eastern section of Queensborough as a result of a failure of the water supply which left faucets dribbling and bath tubs unfilled.

MOUNT ETNA'S FURY WAS DIMINISHING LATE THURSDAY

Messages of Hope Were Pouring in From Sicily

(By The Associated Press)

ROME, June 21.—The fury of Mount Etna seems to be diminishing tonight and messages of hope are pouring in from Sicily. The flow of lava which became slower during the day is now almost stopped although the volcano is still belching forth smoke, cinders and dust.

The people, however are inclined to be skeptical for last night almost everyone believed that Etna's force was spent, but this morning it was still erupting powerfully.

Dr. Nicholosi, mayor of Linguaglossa informed King Victor Emmanuel that the damage amounts approximately to 70,000 lire. Most of the residents of that town and Costiglione have returned to their homes, the panic has abated and conditions in general are becoming normal.

PEACHES WILL BE LESS PLENTIFUL

CHICAGO, June 21.—Peaches will be less plentiful by about 10,000,000 bushels this year, judging from the forecast of conditions on June 1 according to the fruit and vegetable review of the federal bureau of agricultural economics issued yesterday.

Spring frosts generally delayed the early peach crop picking and damaged the fruit but a fairly good crop of the late varieties is anticipated.

The total peach crop is estimated at 46,525,000 bushels. Georgia probably will have a million bushels more than last year, but California's output probably will be the large 1922 crop. A short crop also is predicted for the Carolinas, Arkansas, Missouri, Oklahoma and Colorado. New York's crop also will not equal that of last year.

In expectation of the broadening of the season with heavier supplies, declines in price were noted in most consuming centers. Closing prices in Boston for the week ending June 18, ranged from \$1.25 to \$2.00 a bushel for Georgia early varieties, and the top price was \$2.75 at Pittsburgh.

CHILD SAVED FROM ELECTROCUTION

Mason City, Ill., June 21.—Suspended in mid-air by the electric current which surged through live wires and severely burned his body, the life of Cecil Rauch, 11 year old son of Mr. and Mrs. John Rauch, of this city, was saved when his parents, after frantic efforts, succeeded in having the power shut off at the main plant at Petersburg yesterday.

Cecil was climbing a tree in a hunt for a bird's nest when he came in contact with the live wire.

AVIATOR HAS POSTPONED TRIP

Belleville, Ill., June 21.—Lieutenant Russell L. Maughan, who was scheduled to leave Scott Field near here today for Dayton, Ohio, postponed the trip, as he is desired to rest. Lieutenant Maughan who is returning here after inspecting landing sites for his proposed four seat daylight trans-continental flight said he would hop off tomorrow for McCook Field.

PHILADELPHIA MAN WILL BE ELECTED ROTARY HEAD TODAY

Gury Hundaker, Restaurant Proprietor, Not Opposed

(By The Associated Press)
ST. LOUIS, Mo., June 21. (By A. P.)—Guy Hundaker, restaurant proprietor of Philadelphia was assured of election as president of Rotary International this afternoon when the fourteenth annual convention in session here voted to close nominations after his name had been the only one presented. The formal balloting for president and other officers will take place tomorrow.

A talk by President Harding featured the session. Appearance of the president before the assembly late in the day came as a big surprise to the delegates. Announcement of the president's visit was withheld at the request of the president inasmuch as it was the only departure from the executive's outlined itinerary. Mr. Harding, who is a member of Rotary was given a tremendous ovation as he entered the Coliseum where the convention is being held.

The afternoon program, which was devoted largely to discussion of the boys' phase of the organization included addresses by Everett Hill, chairman of the International Boys' Work committee, Frank D. Slutz, Dayton, Ohio and Edgar A. Guest, newspaper poet of Detroit.

URGE MERGING OF SOLDIER ORGANIZATIONS

(By The Associated Press)

AURORA, Ill., June 21.—A resolution urging an amalgamation of all former soldiers' organization or failing in this, the creation of a council in which all organizations will have representation was prepared today at the fourth annual encampment of the Illinois Veterans' of Foreign Wars, meeting here.

Speakers said the idea of the amalgamation or the representative council grew out of a desire to unite veterans of all wars on matters of policy pertaining to ex-service men.

Resolutions were also prepared urging that action be taken to make it clear that Memorial Day, May 30, is a day on which reverence is to be shown the memory of departed veterans of all American wars. Markers for all American graves in France were urged. Solicitation of funds by former service men or by their organizations for a personal cause were condemned.

Candidates for commanders who are making the most active canvass are: Col. S. H. Myers, Chicago, present commander; Gerald Ginnaven, Springfield, Ill.; I. Lancaster, Forrest; Fay Ickes, Springfield Ill.; Verne De Long, Springfield.

FIRE DESTROYS SCHOOL BUILDING

(By The Associated Press)

HAYWARD, Wis., June 21.—Fire which was discovered early today demolished the Hayward High school and grade building and caused a loss estimated at \$100,000.

Nothing was saved except the school records.

Immediately preceding the discovery of the fire the district was swept by a terrific wind and electrical storm. It is thought the fire was caused by lightning. Insurance was carried to the amount of \$60,000.

WOMAN AND TWO BABIES DISAPPEAR

Freeport, Ill., June 21.—Mrs. Otis Lutz, wife of a young farmer near Shannon, Ill., who disappeared with her twin babies, an automobile, a radio outfit, silverware and other household articles last Tuesday is believed to be speeding westward, accompanied by her father, Edward Boyd, said to have been an amateur hypnotist. According to information received here a woman and two babies and accompanied by an elderly man passed through Maquoketa, Iowa yesterday. Lutz, said his wife took \$500 in cash with her.

SEEK WIFE IN IOWA

Clinton, Ia., June 21.—An automobile party composed of a woman, two babies and an elderly man, believed to be Mrs. Otis Lutz, wife of a young farmer residing near Shannon, Ill., her babies and her father, Edward Boyd, who have disappeared, inquired the way to Calamus, Iowa, when they passed thru Maquoketa, Iowa, late yesterday, according to the sheriff's office at Maquoketa. At Calamus, however, the trail was lost and it is not known whether or not the party reached that place, located at the western end of the Lincoln highway paving in Clinton county.

Governor Small Puts 33 New Laws on Books

(By The Associated Press)

SPRINGFIELD, Ill., June 21.—Thirty-three new laws went on the statute books today when Governor Small signed that number of bills passed by the 53rd general assembly. The governor also vetoed Senate Bill 533 introduced by Senator Dailey of Peoria authorizing the department of public works to appraise property no longer serviceable to the state and sell it at public auction. Some members of the legislature had criticized this bill on the ground that its scope was too broad.

Among the bills signed today was the co-operative marketing measure, authorizing 11 or more persons to form co-operative associations for the purpose of marketing the members' farm products and buying farm equipment.

After placing his signature to the 33 measures, the governor left for Chicago to sign another batch of soldiers' bonus bills.

Among other bills signed were the following:

Increasing salaries of supreme court judges from \$10,000 to \$15,000.

Senate Bill 35 (Mills)—Provides for construction of homes for disabled World War veterans at Elgin.

Senate Bill 381 (Barbour)—Increases maximum pension of public library employees from \$600 to \$900.

DECIDE TO SEIZE ALL LIQUOR EVEN THO UNDER SEAL

Secretary Mellon Announces Policy of Government

(By The Associated Press)

WASHINGTON, June 21.—Secretary Mellon announced late today that it had been decided to seize all ship liquor brought into American waters even though it is aboard foreign ships and under the seal of foreign governments.

Arrangements have been completed by the treasury and instructions transmitted to the collector of customs at New York to break the seals on liquor stores carried by the liner Berengaria when she docks tomorrow morning. The liquor will be seized and deposited under bond.

Assistant Collector Stuart at New York will supervise the seizure of the Berengaria stores. It is understood that as a test case the master of the Berengaria then will file a formal protest which will be forwarded to the treasury department for consideration.

Secretary Mellon would not discuss possible action by the treasury on the protest, but it was explained that such a procedure was necessarily an obvious one for the treasury to follow in the circumstances.

DISCUSS COOPERATIVE MARKET ASSOCIATIONS

(By The Associated Press)

CHICAGO, June 21.—Conversations between Bernard Baruch, New York financier and President George E. Marcy of the Armour Grain Co., on the probabilities of an agreement whereby co-operative grain marketing organizations might be represented on the Chicago board of trade by some member grain house, have resulted in no tangible offer. Mr. Marcy said, following his return yesterday from New York.

In discussing the report current in trade circles for several days, that Mr. Baruch had inaugurated conversations with various commission houses in his efforts to help the farmers, Mr. Marcy made it plain that no specific proposal involving either his own or any other company had been put forward by Mr. Baruch.

Several conversations with various house representatives failed to reveal a working basis for actual negotiations in the matter, in the opinion of leading grain men here.

EASTERN HEAT WAVE GENERAL

(By The Associated Press)

NEW YORK, June 21.—With more than forty deaths and scores of prostrations reported, Eastern States continued to swelter today in the general heat wave. Philadelphia reported the hottest June day in the history of its weather bureau when the temperature mounted to 100 degrees, while it reached 96 in Boston, the warmest spot listed in the New England states. Baltimore also reported 100 degrees.

Poughkeepsie, N. Y., reported 101 degrees.

Schools and factories throughout the eastern states generally were closed and in many cities city employees were given liberty until the heat wave has been broken. Householders throng parks to-night to escape the torrid condition.

HARDING PAYS TRIBUTE TO BRYAN

(By The Associated Press)

SALEM, Ill., June 21.—President Harding took occasion here today to pay tribute to William Jennings Bryan. In the course of a formal platform address he paused to inquire if Salem was not the birthplace of Mr. Bryan and when informed it was, he said:

"You have given a fine, lovable, worth-while American to his country."

HEARING ON PACKER MERGER ADJOURNED IN CHICAGO THURSDAY

Hearings May Be Continued Until Next Fall

(By The Associated Press)
CHICAGO, June 21.—Representatives of the government in the hearing on the complaint of Secretary Wallace of the Department of Agriculture against the merger of Armour & Co. and Morris & Co., last March 28, decided today to adjourn the Chicago sessions today.

The investigations may be continued until fall or it may be resumed in Washington Monday.

S. W. Doty, manager of the Chicago Producers Commission association, a co-operative association which began business last year, testified today that he had sold as many animals to the Armour and Morris buyers as prior to the consolidation. Although he said he believed the merger would lessen competition he declared on cross examination that his co-operative company, a combination of small producers had not reduced competition in the selling end of the market.

Fred W. Waddell, vice president of Armour & Co., also a witness testified that since the merger March 28 last, the same number of buyers representing the Armour and Morris plants were maintained on the market although he said all Armour and Morris buyers were directed from Armour & Company's office here.

Buying was however, it was brought out, largely done on the individual judgment of the buyers themselves.

BRITISH ATTACK CAUSES SEEKING OF LEGAL OPINION

(By The Associated Press)

WASHINGTON, June 21.—Spurred by the British attack on methods at Ellis Island in handling British born immigrants, Immigration Commissioner Husband today sought legal opinion as to whether steamship companies could be required to bear the expense of detaining aliens at immigration stations.

Sir Auckland Geddes, the British ambassador who recently made an inspection of conditions at Ellis Island is said by officials here to have made a favorable rather than an unfavorable report.

Admitted conditions at Ellis Island leave much to be desired, Mr. Husband said and it was understood that the Geddes' report recognized the difficulties of the American government. The outburst in parliament yesterday it was declared caused surprise among American officials.

The members disciplined were Benjamin Alexander, of the house of J. Schenck who was expelled for an act inconsistent with the curbs principles of trading and A. B. Morley of A. B. Morley & Co., who was suspended a year for "an act detrimental to the best interests of the country."

Mr. Morley issued a statement declaring the only offense he had been guilty of was failing to answer a summons of the board of governors.

LEAGUE ISSUES NEW DECREE

(By The Associated Press)

GENEVA, June 21.—Notification has been given to the secretariat of the league of nations by the Sarre governing commission that the decree applying to the Sarre German laws suppressing public meetings in order to maintain order has been cancelled. A new decree has been issued.

The decree in question was one to which the British delegate on the council objected and concerning which the British government asked the council to discuss the advisability of an investigation.

LEVIATHAN TRIP IS SATISFACTORY

On Board the Steamship Leviathan, June 21. (By A. P.)—Uncle Sam's guests on board the Leviathan breakfasted today some distance east of Wilmington, N. C., after a night's run which was satisfactory in every way to the passengers and officers of the giant liner.

The vessel probably will turn around for the homeward voyage at 4 o'clock tomorrow morning when it is expected the Island of Abaco, "the hole in the wall" of the Bahamas will be reached.

HOUSE CLEANING IN WALL STREET BEGAN THURSDAY

President Silkworth of Stock Exchange Going to Resign

(By The Associated Press)

NEW YORK, June 21.—The house-cleaning in Wall street, inaugurated after the failure of E. M. Fuller & Co., for \$5,000,000 and disclosure that the house was one of scores of bucketshops where brokers bet their brains against their customers' money, brought forth important developments today:

1.—Inauguration by Attorney General Sherman of a campaign to close all bucketshops by injunction, under the recently adopted Martin act.

2.—Announcement that W. S. Silkworth, who has been sharply under fire because of his relations with now bankrupt members of the Consolidated Stock exchange has decided to resign the stock exchange presidency next Thursday and that Lawrence Tweedy, vice president, should succeed him would immediately start a thoro re-organization of the exchange.

3.—Disciplinary action by the New York curb market against two members alleged to have committed acts injurious to the exchange. One was expelled and one suspended for a year.

4.—Reports that powerful banking interests in the street had inaugurated a series of conferences to seek some means of stabilizing conditions in the financial zone. In this connection the statement last night of President Cromwell of the New York Stock Exchange that a movement was on foot to organize a pool to save houses subjected to runs was recalled.

The attorney general's drive announced last night when he obtained from supreme court justice Wasservogel temporary injunctions restraining the interlocking brokerage firms of W. W. Weiss and company and J. H. Dube and company from bucketing or otherwise engaging in fraudulent stock transactions.

The announcement that Mr. Silkworth planned to resign for the good of the Consolidated Exchange came from the president himself. It followed close on the heels of the unsuccessful efforts of counsel for creditors of E. M. Fuller & Co. to elicit from Mr. Silkworth at a referee's hearing admitted that he had received money from tottering houses at about the same time he was advising inquirers that these firms were in good condition.

The curb market's action in disciplining members came as the sequel of a promise made by curb officials to the attorney general that they would do all in their power to wipe out improper dealings among the members.

The members disciplined were Benjamin Alexander, of the house of J. Schenck who was expelled for an act inconsistent with the curbs principles of trading and A. B. Morley of A. B. Morley & Co., who was suspended a year for "an act detrimental to the best interests of the country."

Mr. Morley issued a statement declaring the only offense he had been guilty of was failing to answer a summons of the board of governors.

The cautions total seven:

1. Would you willingly injure a child?

2. Drive reasonably.

3. Put your city on the safety roll.

4. Remember you are at times a pedestrian.

5. "After you" is courtesy on the road, as well as in the doorway.

6. Keep the brakes in perfect condition.

7. Haste makes havoc.

A small percentage of the motoring public causes the thousands of motor accidents and fatalities which occur every season. It is the aim of the automobile world in 1923 to stimulate this havoc-making minority to eligibility in the Safe Drivers' Club.

There is a policy designed to meet the special need of every farmer.

It covers all farm buildings, household goods, provisions, fuel and personal effects, grain, seeds, hay, straw, and fodder, all kinds of stock feed, farm tools, implements and machinery, harness and similar equipment, vehicles, horses, mules, cattle, sheep and hogs against the hazards of fire, lightning, tornadoes, cyclones and windstorms.

You may also buy protection against hailstorms in connection with the above liberal coverage.

HEIDELBERG TO RECEIVE HELP FROM ABROAD

Heidelberg.—(By the A. P.)—Faculty and students of the Heidelberg University are rejoicing over the announcement that the institution will receive 50,000 English pounds from the estate of the late Dr. Mond, who founded one of the leading chemical houses in England and is the father of Sir Alfred Mond, who was a member of the Lloyd George cabinet. Dr. Mond was born in Germany, but became a British subject.

Heidelberg is one of the most international of the German institutions of higher education. It had 2500 students during the term which recently closed, about ten per cent of whom were foreigners.

Of these Switzerland led with

47 students, a majority of whom were taking law courses. North and South America sent six students, England had 12, Greece 11, Bulgaria 13 and Japan 16, 13 of whom were studying philosophy.

Edwin Blate and Gover Fox were business visitors in the city from Glasgow Thursday. Frank Hunter was in the city from the Sinclair neighborhood Thursday.

ILLINOIS' COST OF GOVERNMENT \$7.83 PER CAPITA

Cost Jumps from Total Per Capita of \$3.18 in 1915

(By The Associated Press)

WASHINGTON, June 21.—The department of commerce announces that according to reports made to the bureau of the census the costs of government for the fiscal year ended June 30, 1922, amounted to \$52,118,260, which was a per capita cost of \$7.83. In 1918 the per capita cost was \$4.08, and in 1915, \$3.16, the totals for these years being \$25,431,117 and \$18,936,023, respectively. The per capita costs for 1922 consisted of expenses of general departments \$4.60, expenses of public service enterprises, \$0.01, payments for interest \$0.03 and for outlays, \$3.19. More than \$2,000,000 was reported as paid for permanent improvements of charitable and correctional institutions and more than \$17,000,000 for highways, in 1922.

The total revenue receipts for 1922 were \$45,041,665 or \$6.76 per capita. For the fiscal year the per capita excess of governmental costs over revenue receipts was, therefore, \$1.06.

In Illinois property and special taxes represented 36.2 percent of the total revenue for 1922, 74.9 percent for 1918 and 77.4 percent for 1915. The increases in the amount of property and special taxes collected was 7.2 percent from 1915 to 1918 there being a decrease of 25.1 percent for 1918 to 1922. The per capita property and special taxes for the three specified years were \$2.45, \$3.49 and \$3.38 respectively.

Earnings of general departments or compensation for services rendered by state officials represented 5.2 percent of the total revenue for 1922, 6.3 percent for 1918 and 7.4 percent for 1915.

Business and non-business licenses constituted 42.8 percent of the total revenue for 1922, 16.8 percent for 1918, and 13.2 percent for 1915. Receipts from business licenses consist chiefly of taxes extracted from insurance and other incorporated companies, while those from non-business licenses comprise taxes of motor vehicles and amounts paid for hunting and fishing privileges.

In 1922, the principal items of receipts from business licenses were \$3,134,000 from gross earnings, Illinois Central Railroad; \$3,806,000 corporation licenses; and \$3,290,000 from insurance companies. The chief item in non-business licenses was \$8,318,000 license tax on automobiles.

The net indebtedness (funded and floating debt less sinking fund assets) of Illinois was \$1.91 per capita for 1922, \$0.33 for 1918 and \$0.35 for 1915. Sales of bonds for waterways amounted to \$1,000,000 and roads \$10,633,500.

For 1922 the assessed valuation of property in Illinois subject to ad valorem taxation was \$4,201,674,685, the amount of taxes levied was \$19,907,534 and the per capita levy \$2.84.

MOTOR CARS OPEN REMOTE SECTIONS OF THE NEAR EAST

BEIRUT, Syria, (By A. P.)—American automobiles threaten to supplant railroads in many parts of the Near East. Throughout Syria, Palestine, Mesopotamia and in certain parts of Transjordan and Arabia, fleets of American motor cars now link up remote cities and towns and afford the traveler a cheaper and more comfortable journey than by rail. In some of the sparsely settled and scattered regions of the Mediterranean and interior countries, Yankee motor cars have blazed the way to places which heretofore were accessible only by long and tiresome journeys on donkeys and camels. In Syria and Palestine 90 per cent of all automobiles in use are of American make.

American tourists to the Holy Land are now able to make the trip from Beirut to Jerusalem by automobile over excellent roads. Before the advent of the American car the 200 mile trip from Beirut to the Holy City occupied nearly a week; today it can be done in 10 hours.

Palestine Is Modern Americans at home who think of Palestine as it is depicted in the Bible, a pastoral land untouched by modern life, would perhaps be surprised to find the whole region covered by a great arterial network of splendid roads and fast-moving cars. The worst en plough, the hand scythe, and the other primitive implements which for thousands of years were used to make this land fertile and productive, have given way to modern American agricultural machinery. In the larger productive areas the camel and the ox-cart have been supplanted by time-saving power tractors.

In the days before the war it took four days to journey from Jerusalem to Nazareth. Today it can be done in four hours. Along the old tracks the camel, heavily laden, still winds his way, never so much as turning his head at the hoet of the caravan of automobiles.

The long-cherished idea of a quick land route from the Mediterranean to Bagdad and India also has been brought within the realm of practical experience by the development of a motor car service between Beirut and Haifa and Haifa and Damascus. This route brings Bagdad within 60 hours' land journey of the Mediterranean.

The course takes on thru Damascus, then across the Syrian desert to Ramadje and on to Bagdad, a distance of 590 miles, with only one stop halfway between Damascus and Damadje at Rutba Wells, the only available water source throughout that stretch of desert.

WOLF OF MOSCOW FACES FIRING SQUAD

(By The Associated Press)

MOSCOW, June 21.—Ivan Komarov known as the "Wolf of Moscow" convicted of murdering 33 persons since 1921, and his wife were executed Monday night by a firing squad.

Throughout his trial Komarov had affected bravado but after his conviction he endeavored in every way to save his life. First he appealed for a new trial, and when this was denied, he pleaded with the government for clemency. The man showed surprising knowledge of the technicalities of the criminal code.

Komarov made a special plea for clemency for his wife.

Komarov was a former Moscow cabinet officer. He was arrested last month on a charge of having murdered 33 persons, 22 of the bodies of whom were found in the cellar of his house tied in sacks. A confession by him involved his wife and other persons. He said all the victims were killed while attending tea parties in his home, where they had been invited for the purpose of robbery.

Mr. and Mrs. W. T. Dodsworth and family were Jacksonville visitors yesterday from Franklin.

Harold Strawn of Alexander transacted business in the city Thursday.

The Book of Poisoned Leaves

By CHARLES E. BAXTER

"The coroner's jury was quite right. There is no evidence to connect Mr. Harold Thayer with the murder of his uncle."

So spoke Grinning, the famous private detective, who had been called to investigate the death of Rufus Thayer, to the local police chief.

"I'm inclined to agree with you," announced Rogers. "Of course, he inherited all the old man's property."

"And would have come into it in the course of a few years, anyway," Grinning responded.

Harold Thayer had urged Grinning to come to the house and investigate. The circumstances were these: Rufus Thayer had retired to his country seat after a distinguished career as a judge in Burma, extending over many years.

He had brought with him a number of Burmese trophies, among them the famous Book of Death, from a Buddhist temple, which he had purchased at great cost after the sack of Mandalay, many years before.

He had never found time to prosecute certain studies, but now he had spent his retiring years going into certain obscure ritual practices of a Buddhist sect. The Book of Death contained the secret of these rituals.

It was so called because tradition said that every person who had ever attempted to unravel these mysteries through the book had come to a violently sudden end.

Old Thayer had been found dead at his desk with the open book before him.

Grinning looked at the book, studied the quaint pictures that adorned the extraordinary text, and shook his head.

"We must get Palgrave, the Burmese authority," he said.

"But surely you don't attach importance to the legend?" asked Rogers.

"You say your uncle was found dead on the very day he began the study of this book?" asked Palgrave.

"We found him dead in his chair. He—please be careful, Mr. Palgrave; the edges are stuck and it might tear easily."

Palgrave was fingering the book. "This tradition—" he began. "Has any other person died, to your knowledge, after reading it?"

"My uncle spoke of several; but he had had the book shut away for many years," answered Harold Thayer.

"Let me caution you not to touch it, then," Palgrave rejoined. "I shall have to conduct certain investigations. . . . No, leave it open, just as it is, upon that table. Thanks, gentlemen."

"But what are you going to do?" questioned Grinning, when they were outside.

"I shall take it up to my laboratory tomorrow and have the ink carefully analyzed. It may contain a toxic agent."

"Surely, not after so many years?" asked Rogers. The three had descended to the living room, leaving Harold Thayer upstairs.

"There are certain poisons that give out imperceptible aromas continuously. You must remember that the whole book is heavily printed in wood block type; the illustrations are masses of color; in fact, there is almost as much ink as paper there. Now it is quite possible that the moisture of the atmosphere would combine with these chemical agents to produce a sensible chemical discharge. . . . I may instance prussic acid, the inhalation of which causes immediate death. However, that is at present theory, and—"

"What's that?" cried Rogers.

"There was the sound of a body falling in the room above."

Without a word Palgrave dashed from the room, the others following. He burst open the door of the room above. On the floor lay Harold Thayer, quite dead. The book was open on the table. Palgrave bent over him. He raised his hand. The thumb and finger-tips were wet.

"Quicker action than I anticipated," said the expert. "I blame myself very much for not having foreseen that. Still, Thayer ought to have obeyed my instructions. He was so afraid I would tear the book that he tried to separate the pages. Unfortunately he did it with a moistened thumb and forefinger."

"It's an old, very old Oriental trick, gentlemen. You'll find it in the Arabian Nights. The poison was used to stick the leaves together at the edges, so that any person not knowing the secret who tried to separate them in Thayer's way—well, gentlemen, poor Thayer paid a terrible penalty. But I ought to have warned him. I—failed."

EDITOR PLEADS FOR FREE PRESS

(By the Associated Press)

ST. LOUIS, June 21.—A free press in a free nation is the champion of national independence as well as of individual liberty. If it is loyal of the moral obligations imposed by its political rights, James T. Williams, Jr., editor of the Boston Transcript, asserted in an address here today.

Mr. Williams spoke before the Fourteenth annual convention of Rotary International.

A free press is the enemy of propaganda, "that paints the fair face of truth for the purpose of deceiving those who seek the truth," he added.

"A free press that is alive to its responsibilities is always at war with sham and hypocrisy wherever they stalk and wherever they garb," he said.

Discussing the responsibility of the free press, Mr. Williams said: "To find the facts, to publish the facts is its primary function, its constant responsibility and its imperative duty. To interpret the facts to stimulate thought about them, to provide discussion, to reflect opinion, to direct opinion, things a free press must strive to do in addition, if it would be a teacher, an interpreter and a leader."

COMMON STOCK OF CLEVELAND FIRM OF LITTLE VALUE

Company Still Solvent, However, Auditors Say

(By the Associated Press)

CLEVELAND, O., June 21.—The common stock of the Cleveland Discount company, one of the largest mortgage concerns in the country, which went into receivership last February 22, is believed to be worthless and the value of the \$7,015,000 preferred stock is "extremely problematical," but the company is still solvent, according to a summary of the auditors' report made public today by receivers William L. David and Gardner Abbott.

The summary shows that the company has assets approximately \$231,000 in excess of liabilities, a fact which it says will assure thousands of holders of the company's bonds and partial payment receipts. Out of \$9,566,670 capital paid into the company, only \$2,321,847 remains, it is claimed.

The losses sustained by the stockholders would appear to be \$2,323,000. This does not take into account however, profits or losses which may be sustained in the sale of the company's real estate and which has not been appraised. Reserves of \$3,240,180 have been set up to take care of all the losses known or anticipated with the exception of those on the company's buildings.

The receiver's financial statement reveals a series of deficits extending over at least two years, their net total amounting to \$3,994,638, including \$961,825 paid to stockholders in dividends.

These deficits, the statement says, include a considerable item of discounts unearned and hence charged back.

The auditors set up as reserves against these unearned discounts \$1,716,870.

The summary was given out by the receivers in the form of a letter to the stockholders and a condensed balance sheet drawn up from the auditors' report.

The letter is signed by the receivers and their attorneys. The audit was commenced prior to the resignation of President Josiah Kirby on February 15.

In a statement given out tonight, Mr. Kirby said that the audit discloses nothing new or startling. It shows the company to be safely solvent, the final amount depending upon results obtained in liquidation of the company's affairs or upon the basis of reorganization if such a plan is worked out.

NO REPLY RECEIVED FROM BRITISH NOTE
London, June 21.—Premier Baldwin stated in the House of Commons today that no reply had been received from France to the recent British note on reparations and the occupation of the Ruhr.

The government had no official confirmation that food supplies in the Ruhr were being interfered with thru the placing of the Ruhr railroads under Franco-Belgian control.

JURY RETURNS VERDICT FOR 91 YEARS OLD WOMAN
Lancaster, Wis., June 21.—Although the ledger showed a balance of \$2,300 against \$37,387.30 recorded in her pass book, a Grant county jury yesterday returned a verdict for Mrs. Barbara Stephens, 91 years old, of Montfort, Wis., who was suing the defunct Montfort State bank.

The bank's ledger showed that the aged woman had deposited the amount entered in the pass book, but it also showed large withdrawals, leaving only \$2,300. The money was taken by Clyde Stephens, cashier of the bank, the woman charged. Stephens fled when the bank failed a year ago and he has not been found.

The plaintiff and the former cashier are not related.

SPEAKER DISCUSSES AMERICAN BUSINESS

H. Hill Leith of Chicago Talks to Kiwanians on Four Phases of Business Growth—Scores Government Ownership in All Its Branches

"There is not one conspicuous example of successful government ownership in all the trials which have been made of it by this and other countries," said H. Hill Leith, representative of the Halsey, Stuart & Co., bonding firm of Chicago, in address before the local Kiwanis club. Mr. Leith discussed the four principal areas or periods in the growth of American business. He first mentioned the broadening of the viewpoint of the average business man to where he can see his relations with the community, with other men, and with business organization as a whole. In such an attitude the business man figures what each movement in business will mean to him personally. It is a relinquishing of the old idea of self complacency which has characterized business men since the beginning of American business.

The next step is the healthy organization period thru which many phases of business have already passed. Great companies have been formed and are in successful operation, giving a wide variety of service to thousands of communities. These companies have also enjoyed a marvelous growth. In 1916 the gross earnings of the Mid-Western Utilities Co., were \$3,000,000, when they served 90 communities. In 1922 the earnings had increased to \$30,000,000 and the communities served to 700.

Thus the speaker began a discussion of the third phase, that of development. Industries have grown by leaps and bounds, and utilities have expanded their area of operation to an unbelievable extent. The greatest aid in the development of utilities has been the abandonment of the smaller light and power stations and the substituting of a large central station. Many communities which are under this system are now getting a higher grade of service than ever before. The reduction of the number of stations has made for efficiency and improved service.

Mr. Leith then told of the fourth phase, or the growth of consolidation of companies and corporations, to give still better service and greater benefits to the public. A number of railway companies in central Illinois have consolidated, and the benefits are already apparent. One traction line reports an increase of freight revenues for the month of May at least 80 per cent over the earnings in the same month last year. The speaker referred to the C. P. & St. L., stating that it was no longer a question of rates to the communities along the route, but a question of the kind of service that would enable the citizens to live and continue their activities.

Government Ownership
Mr. Leith paid his respect to government ownership, as opposed to private enterprises. In England, where telephones are under government control, people say it is easier and quicker to deliver a message on foot than to use a telephone. Two years ago the Canadian government consolidated the minor railway systems of the Dominion and took them over under the name of the Canadian National Railways. Last year the taxpayers of Canada raised a budget of \$37,000,000 to pay the operating losses of the government owned roads.

All of this organization, development and consolidation requires vast sums of capital. Formerly foreign capital and credit was much in demand in this country, and the foreigners were willing to finance the development of our resources. However, the American public is learning the value of investments and the stockholders in the large companies are increasing. The Commonwealth Edison Co. has 28,000 stockholders, the American Telephone & Telegraph Co., 125,000 and the United States Steel Corporation, 220,000. This growth of the investment habit among the people may continue without limit.

With the increase of capital in business has come an increase of service. The American Locomotive Co., is building a \$6,000,000 plant in East St. Louis, mainly for the purpose of being better able to serve its western customers.

Among guests present at the meeting yesterday were Lynn Broadue, A. E. Curry, O. M. Capps of Chicago, and James M. Barnes. There was a large attendance, considering the hot weather, and the members expressed their appreciation of Mr. Leith's address.

BAPTIST ADVISORY BOARD IN MEETING

Board Holds Reorganization Session and Passes Recommendations to Church—Good Supper Precedes Business Activities.

The advisory board of the First Baptist church held a meeting in the church parlors last night, for the purpose of reorganization and the passing of certain recommendations to the church. Dr. T. O. Hardesty was elected chairman of the board for the remainder of the year. George Busey, the church clerk, was declared ex-officio secretary of the board.

It was voted to recommend to the church that, during the vacation of the pastor in August, Sunday morning services to be held on the first two Sundays of the month. It was also voted to recommend that the church join in the union Sunday evening services on the Academy lawn during July and August. It was decided to postpone the quarterly business meeting of the church one week, making it occur July 11.

The meeting of the board was preceded by an excellent supper of salad, sandwiches, ice cream and cake, which was served by a committee of ladies of the church, consisting of Mrs. D. L. Barton, Chairman, Mrs. Alex Rabjohns, Mrs. C. H. Story and Mrs. C. H. Patrick. After considerable discussion of the finances of the church, the board adjourned.

OPPONENTS OF DANCE CIRCULATE PETITION

Large Number Sign Request That Chautauqua be Allowed Exclusive Use of Nichols Park—Would Prohibit Dances for Ten Days.

Considerable opposition to the stand of the park board to maintain the public dances at Nichols park during the chautauqua season, is developing among the church people of the city. A petition to the mayor requesting that the chautauqua have exclusive use of the park during the ten days, and that the dances be suspended in that period, is being circulated, and is obtaining a large number of signatures.

The petition has already gone the rounds of a number of adult Bible classes and other church bodies. Those who oppose the dance had apparently given up the fight, but it is understood that the petition has been quietly circulating for some time.

WILL ESTABLISH AUTO AGENCY HERE

J. F. Overman of Beardstown has arrived in the city with his family and has taken up his residence at 1973 South Clay avenue. He expects to establish an agency in this district for the Star and Durant automobiles.

Mr. Overman has not yet found a location for the agency, but is on the lookout for a place to establish the business.

DEPARTED FOR TRIP THROUGH THE WEST

Mr. and Mrs. J. E. Osborne left yesterday over the Alton for a western tour. They expect to take in Denver, Colorado Springs, Manitou, Pueblo, Royal Gorge, Marshall Pass, Grand Junction and Salt Lake City. From the latter place they expected to proceed to the western entrance to Yellowstone Park where they hoped to meet three of Mr. Osborne's brothers, two of whom live in the west and one in this country. After a tour of the park they expected to visit in Bozeman and on the way home in Minneapolis and Chicago. They expect to be away some four or five weeks.

MINISTERS WILL MEET HERE TODAY

At a meeting to be held at the Peacock Inn today for the purpose of closing up the Bi-Conference campaign in all of the churches of the M. E. church outside of the city it is expected that about 15 pastors and 20 laymen will be present. Dr. M. G. Terry, campaign director of Peoria will be present to assist in arranging the plans.

The campaign for the allotment of \$100,000 for the Illinois Woman's college building fund will begin today and close July 3rd.

BRING DAUGHTER TO HOSPITAL

Mr. and Mrs. E. L. Semvour of Pleasant Hill brought their little daughter to Passavant hospital for treatment yesterday. The child was hurt seriously when she fell 16 feet from a cherry tree recently. The party was accompanied by Mr. Semvour's brother, Dr. E. D. Semvour, of Blackstone, Illinois.

AUTHOR BUYS PRIZED ART COLLECTION HERE

Distinguished British Writer Visits City and Purchases Pictures From Mrs. C. A. Willis, Which Have Been Here Since 1872—Invited to City By Frank Caldwell

A collection of valuable paintings, the work of the English artist, Rowe, which has been in this city since 1872, is to be shipped back to London, from whence it was brought to Jacksonville. The collection has been the property of Mrs. C. A. Willis, 1337 West Lafayette avenue. It was purchased yesterday by Guido Bruno, a distinguished author and publisher of London and New York, who heard of the collection thru Frank Caldwell, whom he met recently in Chicago.

Mr. Bruno came to Jacksonville on invitation of Mr. Caldwell, and while here is also the guest of Dr. C. P. Gillett. He is the author of some 16 books, the latest is entitled "Adventures in American Book Stores and Antique Shops." He is interested mainly in old English and German works of art and in rare books.

Mr. Bruno is now making an eight months' tour of the United States, purchasing rare works of art. He now has a large collection of such works, which is valued at many thousands of pounds. In the larger cities he exhibits this collection and lectures on the pictures, the artists and the work. Everywhere the collection attracts wide and interested attention from lovers of art.

The collection which Mr. Bruno has purchased in this city is the work of the artist, Rowe, who was an uncle of Mrs. Willis. The collection was brought from London in 1872, and will soon return to the land of its origin.

Mr. Bruno had much to say concerning the beauty of Jacksonville. He admired the architecture of the older residences, and said the city was peculiar in that it had an atmosphere all its own.

MOTIONS FOR NEW TRIALS ARE OVERRULED

Motions for new trials in three cases were overruled in the circuit court yesterday, with Judge F. W. Burton presiding. The cases were as follows: Crawford vs. Zachary, Hart vs. Sturgis, and Paige vs. Wells. In all three cases an order was taken for an appeal to the higher court.

The case of Lucy Ransdell, administratrix of the estate of Susan E. Henry, deceased, vs. Jesse L. Henry, assumpsit, was begun in the circuit court Thursday morning. The jury hearing this case includes A. W. Jewsbury, Austin Cokerill, Ross Baptist, Sherman Coultas, J. A. Volrath, James W. Finch, Charles Thompson, Harry Phillips, John Taylor, Robert Rook, Matthew Wagner, John Hunter. The case was given to the jury at about 11:45 o'clock Thursday morning.

After several hours of deliberation the jury returned a verdict in favor of the plaintiff and fixing the amount of damages at \$250.

The court was in session last night, when there was a hearing on objections to report of the master in chancery in the case of Charles A. Myers et al. vs. John S. Green et al. The court overruled the exceptions to the master's report.

Today will wind up the jury cases in the May term of court, altho Judge Burton will come back at some later date to dispose of various chancery matters.

CAMP FIRE GIRLS MADE SCRAP BOOKS

The Oklhee Camp Fire girls of the Congregational church recently made up a number of scrap books which they delivered to Passavant hospital to be used by the children who are patients there. The toys which were made last school term under the instruction of Miss Sibert have also been turned over to the hospital for the same purpose and the little ones are now enjoying themselves immensely and forgetting to a great extent their aches and pains.

EARLY SPRING GREENS

MANY people if they had a taste of some of our noxious weeds would consider them very appetizing. They are not gathered and placed in the market as are water cress, spinach and asparagus. A bunch of tender shoots of the milkweed cooked and dressed with a sauce like asparagus will be found especially good at this season.

All we need to do, to have a splendid blood purifier this spring, is to go out and gather the greens. Boil them until nearly tender in boiling water—just as little as possible—then add salt and finish cooking. Drain, cut several times with a sharp knife, pour over melted butter, pork fat, ham or bacon fat and serve them very hot. If any are left, mold in small cups, garnish with hard cooked egg, and serve with French dressing.

In washing greens great care should be taken to look over each leaf. If the greens grow in sandy soil, soak them in a deep pall of water so that the sand will drop to the bottom. Spinach leaves are so deeply indented that they need great care in cleansing. Usually the water which clings to the leaf is sufficient to cook them.

Wild mustard is a favorite green which may be used until the black mustard which is grown in our vegetable gardens is ready for the table. It may be served like lettuce or in combination with it. To serve it like wilted lettuce, pour hot bacon fat and vinegar with seasonings over it.

Cowslip or marsh marigold is commonly found greens. They are delicious cooked and served as one does spinach.

Lamb's-quarters is a good green but needs something which has some snap to it to give flavor. Mustard is especially good with it.

Sour dock comes early; yellow dock and sorrel are both good. Sorrel makes a nice soup, boiled with beef stock and served with buttered toast.

The acid of the sour dock is especially good for the blood. Pig weed and horseradish leaves mixed with other greens make a good flavored dish.

EPWORTH LEAGUE MEETING CLOSES

Two Jacksonville People Get Offices—Clarence Siegfried and Miss Kathryn Randle Honored

The district convention of the Epworth League which was held at White Hall closed Wednesday evening at 10 o'clock, the final address being given by Dr. W. H. Davidson who is president of the league in Illinois.

The election of officers for the coming year was held Wednesday afternoon at 2 o'clock with the following results:

President—Rev. Harry Evans, Oakford.
Secretary—Hubert Ivie, Waverly.
Treasurer—Clarence Siegfried, Jacksonville.

First Vice President—May Clayton, Bluff Springs.

Second Vice President—Attile Chiti, Virden.

Third Vice President—Mrs. Frank Trussel, Bluffs.

Fourth Vice President—Gracye Rexroat, Concord.

In order to facilitate the work of the president in the conduct of the District League, the district was divided into a number of groups with a chairman in charge of each group. These groups and chairmen are as follows:

1. May Mitchell, Petersburg.
2. Mrs. Frank Trussel, Bluffs.
3. Kathryn Randle, Jacksonville.
4. Louise Pierce, Manchester.
5. Miss VanWinkle, Waverly.
6. Miss Strahan, Virden.

One very striking and interesting feature of the convention was the chapter stunts, which were put on Tuesday evening by the various chapters represented. The chapter getting first place was accorded the honor of representing the district on Stunt Night at the Institute to be held in Shelbyville, this summer. The following is the order in which the competitors rank with the subjects of their stunts:

1. White Hall Chapter, "The E. L. Convention in 1923."
2. Waverly Chapter, "Boots and Shoes, Hypnotism and Rabbit."
3. Roodhouse Chapter, "Silent Quartet."

Two individual stunts were given, "Mind Reading" by Mrs. Frank Trussel and "The Black Cat" by Attile Chiti.

The contest for the highest standing in the district was won by the Waverly Chapter, with 661 points and Grace Church Chapter was second with 570 points. This record entitles the Waverly chapter to the district loving cup for this year.

The convention next summer will be held at Winchester.

GRACE CHAPEL

Lloyd Ogle started Saturday afternoon for Normal, Illinois, expecting to take a six weeks course, returning the last of July.

Several farmers from this neighborhood shipped hogs from Joy Prairie with the shipping club Howard McFadden was a business caller at H. E. Ogle's Monday morning.

Stephen Steward and brother Robert are doing painting at Elias Brainer's residence.

Mrs. Elmer Smith received word Monday that her mother Mrs. John Steward, of Waverly had taken another attack with her heart which is leaving her very weak with no hopes of recovery.

Quite a few from this neighborhood attended the "Community Supper" held at Arcadia on Tuesday night which cleared a nice sum for the benefit of the cemetery church.

On account of rainy weather Sunday June 10th the Chapel youngsters didn't get to give their "Children's Day" program, and will render a few numbers of the same on Saturday night June 16. Supper ready to serve at 5:30 All are invited.

Mrs. Lloyd G. Ogle is visiting at the home of Mr. and Mrs. Oscar Smith of Jacksonville on Hardin Avenue.

A BIRD PROTECTOR

Miss Anne Jackson, South Church street, so well known as a lover of flowers and birds and protector of the feathered creatures as well, has now in her charge a yellow-hammer, a bird of the woodpecker species. It fell from the parent nest when unable to navigate and the people who found it took it to Miss Jackson who at once mothered it and now it is able to fly about and enjoy life quite well. Miss Jackson keeps it so far in a screened porch and it is hardly old enough to be turned loose. The little creature thinks well of its kind benefactress and will complacently sit on her shoulder while she goes almost anywhere. Occasionally she sets a sharp claw from the feet intended to hang to the side of a tree while worms are being sought. It has a tongue several inches long and is quite an interesting object.

NORTONVILLE

William Guthrie and daughter Hortense of Oswego, are visiting his daughter Ms. Ford and family this week.

Mrs. Robert Fanning of Jacksonville spent several days this week with her daughter and family. Mrs. O. P. Steele.

Warren Fanning and wife, and Jasper McNeely and family spent Sunday with Rev. Ford and family.

Leonard Dalton and Harry Fanning were Jacksonville visitors yesterday.

Mrs. Dick McNeely and daughter Ruby and Mrs. James O'Brien visited Wednesday with their mother, Mrs. Douglas Atterberry.

Bessie the Dentist

By ANTHONY REIMERT

When Doctor Eastlake died suddenly, Bessie was at first much at a loss. For nearly twenty years she had been his assistant in the downtown dental parlor where he administered treatment to business men during the lunch hour—at least, this was his rush hour—and at other times.

Everybody seemed to go to Eastlake's homely little parlor some time or other. And every one remembers Bessie, the tall, thin, homely girl who handed you a glass of warm water, and looked at you when the Doc touched that nerve with an expression that said: "If you think that really hurt, you're another. Doc Eastlake wouldn't hurt a flea."

After that you kept still, and were ashamed to pretend to be hurt for fear that the Doc really would start hurting if you didn't protest before it came off.

However, Eastlake certainly was an A-1 dentist, and Bessie didn't know what to do when she went down to the office that day and learned that he had died suddenly. There were a lot of clients, too; among them old Jones, the broker, who had seen under treatment for alveolar something or other.

"See here, Bessie," said Jones. "I've been coming to the Doc for fifteen years, and I'm not going anywhere else at my time of life. And you've been here fifteen years if it's a day."

It was longer than that by five years, Bessie blushed. She must have been forty, but she didn't look it. She had never had another job.

"By heck!" exclaimed Jones suddenly. "Say, Bessie, why don't you take over the work?"

"Me?" stammered Bessie. "Sure! You! You must have learned as much as the best dentist in the country, watching 'em Doc all these years. I'd rather trust myself to you than to any young fellow I'd never heard of. You get busy with that treatment; I've got to get back to my office."

Bessie obeyed mechanically, and old Jones declared that she did better than Doc Eastlake had done—didn't hurt so much with that jig saw—he meant buzz-saw—apparatus.

A lot of the old patients were interested in Bessie. She certainly was a fixture in the office. The upshot was that they put their heads together, made inquiries, and found that by passing examinations Bessie was able to blossom out as a full-fledged dentist without loss of time. I'm not saying she didn't treat her patients before she qualified. The fact is she made her.

Old Jones declared that she had cured him. He went round boasting of the new woman dentist; the district had acquired. Bessie grew rich and the place flourished more than in the old Doc's time.

Her best client was old Mr. Jones. There seemed to be some chronic, obscure trouble with what teeth he had remaining—at least, he insisted that there was, although Bessie who was an honest girl, tried to convince him that he was throwing money away.

Things went on like that for about six months. And then the blow fell. It appeared that sex and professional jealousy had been at work. The neighboring dental practitioners had put their heads together and found that Bessie was not qualified. All this time she had been working as a dentist under a temporary license. Now it seemed a certain state law, passed in the dark ages of dentistry, disqualified her because—oh, some technicality or other.

It was Jones who first learned of it when he went in one day at the noon hour for his regular treatment and found Bessie in tears.

"Why, what's the matter?" he demanded.

"I was in the anteroom waiting to have a tooth extracted—Bessie had a mighty strong, deft wrist—and I heard every word."

Bessie told him: "I had a visit from the inspector and he said I must close up at once. I don't mind. I've got enough to live on now, but—let's my patients."

"And what'll I do?" yelled old Jones.

"Mr. Jones," said Bessie in her dignified way, "I've told you again and again the treatment isn't benefiting you, and—"

"Nonsense! I'll die if I can't go on with it. I'm going to rig up a dental office in my house and you'll come and treat me every day—no, by heck, you'll live there and treat me twice a day. You won't mind an old widower with two full-grown daughters."

Bessie was demurring. "Then will you marry me?" screamed Jones in an awful voice. "You fool girl, that's what I've been after all the time, if you'd as much sense as a flea, to see it. Come on! What do you say?"

I didn't withdraw until I was sure that Bessie's future was an assured one.

Swartley Says Tanlac Fully Overcame Stomach Disorders of Both Wife and Self

"My wife and myself both have good reasons for praising Tanlac," said John D. Swartley, well-known carpenter, living at 3309 N. Madison St., Peoria, Ill., a few days ago.

"I was so weak and run-down when I commenced taking Tanlac that I could hardly swing my hammer or pull my saw. Indigestion, stomach trouble and loss of appetite were pulling me down. After eating a few bites I would bloat up with gas and suffer for hours from cramping pains in my stomach and shortness of breath. I was in mighty bad shape and kept getting worse."

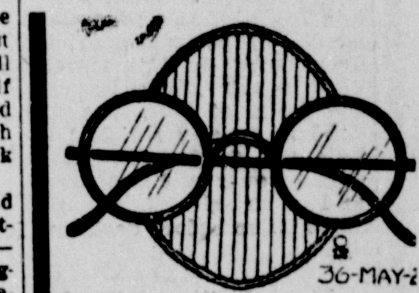

"Well, the Tanlac treatment has knocked out all my troubles, has given me a coking good appetite, and built up my weight and strength until I simply feel fine. My wife, who suffered about the same way I did, recovered her health in short order with the medicine also. I know of other cases, too, where Tanlac has given remarkable results."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

HUGGINS FAILS TO INCLUDE MAYS IN LIST OF REGULARS

(By NEA Service)

NEW YORK—Carl Mays, star of the New York Yankees pitching staff in 1921, leader of the American League twirlers that year, is no longer a regular.

Manager Miller Huggins of the Yankees has definitely announced that his big four for the present will consist of Shawkey, Bush, Hoyt and Jones with Pennick as next choice should any of the first named four falter.

The once famous subway artist has been relegated to the ranks of the substitutes. No doubt his main duty this year will be to act as relief pitcher. Mays with his unusual style of delivery should be a very valuable man in such a role for a few innings.

The decline of Mays is due to the loss of his fast ball. This was his big stock in trade. It dipped much after the manner of a spit-

August 26—Chatham.

THREE TEN ROUND BOUTS TO PRECEDE BIG BATTLE

GREAT FALLS, Mont., June 21.—(By the A. P.)—Three ten round bouts will precede the Jack Dempsey-Tom Gibbons heavyweight championship contest at Shelby, Mont., July 4. Mike Collins, match maker for the championship contest announced here tonight.

The boxing carnival will start at 12 o'clock noon with the first preliminaries and Gibbons and Dempsey are scheduled to get into the ring promptly at 3 p. m., mountain standard time.

Jimmy Delaney, the St. Paul light heavyweight, working in Gibbons' camp, will meet Jack Burke, of Pittsburgh, one of Dempsey's sparring partners in one of the ten rounders, while Tillie "Kid" Herman of Los Angeles, also of the Gibbons' camp, will meet Joe Simonich of Butte in another preliminary. These are welterweights. The third preliminary probably will be between Lackey Morrow of Portland, Oregon, and Dandy Dillon a Minneapolis featherweight.

Dempsey's training camp, due to the violent rainstorm of yesterday was a quagmire today and the champion was forced to suspend all training activities.

Manager Jack Kearnes welcomed the day of rest as he declared Dempsey was ready to go into the ring.

GOLFERS ALSO GETTING FOOLISH

San Antonio, Texas, June 21.—N. J. Morris, local amateur golfer set a new world's marathon record today when he completed 238 holes of golf. He started at 4:55 a. m. and finished the final hole at 8:10. He played 13 rounds over a 6,200 yard course and then played the first two holes twice before darkness forced him to quit.

Mrs. William Scuphan and daughters, Elizabeth, Letitia, and Bessie motored to town from Winchester yesterday.

The Thing You Shouldn't Do

Many people—most people, in fact—do this thing. But they shouldn't. Some know they should not do it, but they go right on doing it just the same.

This, then, is a warning; also a better way.

The thing you shouldn't do is this: You shouldn't wash your teeth and rinse your mouth out in the lavatory in which you wash your face and hands.

To do this is to flirt with disease. That which is brushed off the teeth and rinsed into the lavatory bowl is a mass of germs. To follow a rinsing with a washing of face and hands is likely to carry some of the germs onto delicate parts of the skin and into the eyes.

A better way is to have a dental lavatory in your bathroom. The space it occupies is small; it is convenient; it is a safety first fixture.

BROWNS MAKE IT FOUR OUT OF FIVE

Take Final Game of Series by Score of 3 to 1—Koop Holds Boston to Five Hits

BOSTON, June 21.—St. Louis made it four out of five for the series by winning from Boston today, 3 to 1. Koop held the home team to five hits, Mitchell's triple and an infield out giving Boston its single run in the eighth. Williams' triple in the second after Fewster's error on Severeid grounder and before a bad throw to the plate by Burns was instrumental in scoring two St. Louis runs.

JOE BUSH FINDS RED SOX TOUGH TEAM TO DEFEAT

ONCE upon a time Joe Bush was the star pitcher of the Boston Red Sox. That was after Joe had been sold to the team by Philadelphia, with which he had occupied a similar role.

A star in Boston seldom stays very long in the City of Culture. He is sold to New York. It was so in the case of Joe Bush.

Last season in his first year as a Yankee, Bush had a big season, losing only seven games, yet strangely enough four of the seven defeats were inflicted by his former team-mates, the tail-end Bostonians.

It looks as if the jinx is to continue this year. In his first start against Boston, Bush won after a tough battle. In his second start he was beaten 5 to 3, despite the fact that he allowed only eight hits and struck out eight batters. It also was the irony of fate that George Murray, traded to Boston for Pennock, pitched the victory over Bush.

Yellowstone Salt Lake City Colorado

ALL for the Price of a Return Ticket to Yellowstone alone

Yellowstone National Park, Nature's unspoiled wilderness and temple of wonders.

Unique Salt Lake City with its great domed-roofed Mormon Tabernacle, world-famous organ and mysterious Great Salt Lake.

Colorado, where it is cool when the rest of the country swelters. Snowy peaks nearly three miles high. Every out-door sport under a turquoise sky; ranches, camps, luxurious hotels.

All these and memorable car window views of the Overland and Oregon trails, the Rockies, Echo and Weber Canyons and the giant Tetons at the cost of a ticket to Yellowstone alone when you travel via the West Yellowstone entrance—an advantage exclusive to this route. You can do it in two weeks or stop over at any point as long as you wish.

\$56.50 Round Trip from Jacksonville

Automobile transportation in Yellowstone with accommodations at hotels \$54.00 additional; at camps \$45.00. (Season opens June 20th.) Side trip from Denver to Rocky Mountain National (Estes) Park \$10.50.

If going to the Pacific Coast visit all these places enroute.

Write for Free Booklets. Let us plan your vacation. We shall be glad to relieve you of all details, make your sleeping car reservations and send you free descriptive booklets.

NEW YORK, June 21.—Sup-
porting orders placed at the open-
ing of today's stock market start-
ed a rally which reached fair pro-
portions before the close. Recon-
ciliation of such orders influenced
aggressive short covering opera-
tions and there was strong evi-
dence of buying by so-called
"bargain hunters."

Recurrent liquidation of im-
paired marginal accounts result-
ing from yesterday's smash in prices
gave the market a spotty appear-
ance until the final hour when
practically the entire list turned
upward.

The rise was confined to no par-
ticular class of stock but extended
throughout the list. Baldwin moved
up 4 1/2 points, American Locomo-
tive, Pan-American 2 1/2, U. S. steel
2, and Kelly Springfield 2 1/2.

Railroad shares shared in the
upward point to more than four
points. Relatively little change
occurred in United States govern-
ment obligations, a loss of 3-32nds
in the Liberty 3 1/2s and a rise of a
similar amount in the treasury 4 1/2s
furnished the extreme movement.

Market Report

BUSINESS GOOD IN BUTTER MARKET

CHICAGO, June 21.—The total
volume of business in the butter
market here today was larger and
street stocks were lighter than
yesterday. Yet the market could
not be called firm for both sell-
ers and buyers lacked confidence.
Unsettled best describes the situa-
tion. Top scores were well clear-
ed up at the below quoted prices
and considerable quantities of the
medium to undercores changed
hands but it was harder to get
yesterday's prices. In some cases
slight concessions were made. The
car market was quiet and only
barely steady.

Fresh butter: 92 score 39; 91
score 38; 90 score 37; 89 score
36; 88 score 35; 87 score 34; 86
score 33.

Centralized carlots: 90 score
39; 89 score 38; 88 score 37;
87 score 36; 86 score 35.

FARM BUREAU NOTES

Importance of Agriculture

President David Kinley of the
University of Illinois, in greet-
ing the farm advisers said:
"Agriculture is a fundamental
occupation in the sense that with-
out it community life would fail.
If there were no surplus of food
civilization would fail. If each one
of us had to spend all his time
getting just enough to eat, we
could not do anything else.
There would be no science, no
art, no leisure—nothing but the
conditions of savagery. There-
fore, it is to the economic self
interest of all of us to have the
farmer prosperous. If he finds
himself in distress thru a long
period, owing to causes other than
his own incompetence or neglect,
it is to the help interest of all of
us to help him to recover. We
are impelled to do this, not
primarily for the farmer's sake
but for our own."

"It is your work, the work of
the Farm Advisers of Illinois,
to help the farmers of the state to
be prosperous—prosperous in the
economic sense thru the applica-
tion of scientific principles to the
improvement of the business of
farming, and prosperous also in
their social and personal life thru
the improvement of farm com-
munity conditions. Be assured
of our best wishes and our
earnest support in the splendid
professional service to which you
are dedicated."

A Forward Looking Community
"Some nine years ago a rural
preacher with a vision of the fu-
ture called a meeting to discuss
community problems. From this
modest beginning grew the Rural
Life Progress Club of Naperville,
Du Page County. It was
my good fortune to be present at
the May meeting of the club.
Seventy-five members of farm
families, about half the usual at-
tendance, braved the storm that
night to take part in the discus-
sion and program. Appropriate
music, a review of local happen-
ings in the neighborhood, with
many a pointed joke intended
only for local ears, with a fine
talking t typy
talk on "Rural Life and Home"
Dr. Frye completed the local
part of the program. Summer
meetings of the club are held at
farm houses, winter meetings at
the Y. M. C. A. in Naperville. A
club picnic is an annual event
participated in by all the clubs
in this section of the state. The
foresight of those responsible
for the organization of this club
is well illustrated in the objects
or programs of work as drafted
in that original constitution.
Every member was pledged to
endeavor to do one of five things,
improve their soil, their livestock,
their buildings, their home life,
or their community. A program
worthy of any club today and one
that has been a real asset to this
community." J. D. Bilsborrow,
U. of I.

**R. E. Hironymous, Com-
munity Adviser at the University
of Illinois** has announced a con-
ference to consider the needs of
the rural church on the even-
ing of June 28th. This is the
evening before the I. A. A. picnic.
He would like to see a few live
rural preachers from each county
at that conference.

**KILLS PESKY
BED BUGS
P. D. Q.**

Just think, a 56 box of P. D. Q. (Pesky Devil)
Quinton makes, quart enough to kill a million
Bed Bugs, Roaches, Fleas or Cockroaches, and stops
future generations by killing their eggs, and
does not injure the clothing. Liquid fire to the
Bed Bugs is what P. D. Q. is like; Bed Bugs
stand as good a chance as a snowball in just
scented heat. Patent spout free in every
package of P. D. Q., to enable you to kill them
and their nest eggs in the cracks.

Look for the devil's head on every
box. Special Hospital size, \$2.50,
makes five gallons; contains three
spouts. P. D. Q. can also be pur-
chased in sealed bottles double
strength liquid form.
